YOUR GREATEST GIFT

My Treasure is you;

You are more important than you think. You are loved and needed more than you think. Each of us that are being influenced by you, need you at your best.

The only way for you to be at your best is to discontinue your trips to your B.A.R.! When you take shots from your flask of Bitterness, Anger, and Resentment, you become less than your big better best self. We need you to be at your Bigger, Better, and Best self!

Your greatest gift to yourself and to all of us is for you to live forgiving. The greatest transforming activity is forgiving, for it sets you free to be the Bigger, Better, Best you.

The forgiveness you grant, changes the entire world for the best. Set yourself free to be the complete you, through living forgiveness.

Along with forgiving, find somewhere or someone to Serve through your G.P.A. "Gifts, Passions, and Abilities". It is while you and I genuinely Serve we discover the Big, Better, and Best parts of ourselves. We get glimpses within the words and expressions of gratitude from those we serve.

You are more than you see. We need you at your big, better, and best self. Forgiving and giving your best Serve brings forth the genuine and wonderful you.

Sincerely,
Matt Upton
